

Sterling Pro 12-24V 30A DC-DC Battery Charger

Features:

- Aluminium housing, a water-resistant fan, and our most efficient waterproof board yet all meet to provide you with the longest time frame of full powered operation before thermal regulation that we could imagine on a waterproof unit (IP68 on main body with IP55 external placed fan).
- Comes with pre-wired cable (1.5m long) pre-fused with 8mm ring terminals.
- Simple installation and setup, no more magnets needed.
- Using the same interface and software as our existing BB range, the user benefits from:
 - Complete lithium compatibility, including current limiting and low temperature trip.
 - 7 pre-set battery types and a customisable charge profile for if the pre-sets aren't suitable.
 - Custom voltage engagement settings and ignition feed.
 - Simple to use buttons for configuration.
- NOTE: Cutting of the pre-wired / pre-fused cable shall void warranty.
