

Motocell MLG7L Lithium Motorcycle Battery

Motocell lithium motorcycle batteries are a long-lasting, Light and Powerful replacement for your tired old Lead Acid Battery. Lithium batteries are cheaper to run over their lifetime as they last 2-4 times as many charge cycles as a lead acid battery, plus they are more resistant to vibrations and harsh road conditions. As Lithium batteries are on average 66% lighter than a Lead-Acid they will also help your bike Stop faster, Accelerate harder and change direction quicker!
