

IS1500 – LITHIUM JUMP STARTER

Great for

A good jump starter pack will give you power anywhere, anytime. It is one of the most important pieces of emergency equipment you can carry in your vehicle. Whether tackling extreme tracks or getting home late at night, a jump starter pack will protect you and your loved ones if you're stranded with a flat battery.

Jump Starters are powerful units that can crank your vehicle battery up. Unlimited jumpstarts using Rapid Recharge Technology or 300 times (petrol) & 144 times (diesel)

Features

- **Up to 40 times lighter than traditional jumpstarters** - weighing only 4kgs
- **Quickly jump starts a flat Truck, 4WD, 12V battery** - up to 300 times (petrol) or 144 times (diesel)
- **Safe** - Dual Reverse Polarity Protection with alarm, over-charge/discharge protection and anti-sparking clamps
- **Battery & Jumpstart status indication** - Monitor the jumpstarter's charge level and display jumpstart status from the easy to read LED indicators and BATTERY STATUS button
- **Easy to use 240v docking station** - It is recommended that the IS1500 be charged on the dock when not in use to increase the battery life by 10–20%.

Specifications

Part number	IS1500
Battery Capacity	32000mah High Capacity Lithium Iron Phosphate
Battery Life Cycles	2000+
Output	12V Jump Start
Input	14V
Dual Input Charging System	AC docking station (included)
Jump Start Current	12V 550A
Operating Temperature	-20oC to 60oC
Dimension	235*180*196mm
Weight	4kgs
Warranty	12 months

Suitable for Engine Sizes:

12V vehicle: Up to 6L Diesel & 8L petrol vehicles
