## EF2000iS

### 2KVA INVERTER GENERATOR

The EF2000iS Inverter is a powerful, portable and super sleek generator with lots of great features. Not only does it outperform the competition - it's quieter, smaller, lighter and more fuel efficient too. It's the perfect companion for the motorhome, caravan or camper trailer.

The Smart Throttle™ varies engine speed based on load to improve fuel economy and reduce noise. TwinTech™ Capability enables you to connect two EF2000iS' for almost double the power output. The fuel tap allows you to stop fuel vapour smells and stops fuel contamination during storage.
