

EF2000iS

2 kVA Inverter Generator

Introducing the portable EF2000iS Inverter Generator, specifically designed to deliver maximum power with minimal effort for your power needs. This ingenious generator is not only powerful but also portable, sleek, and packed with an array of features that make it a great choice for a variety of uses.

Despite weighing only 20 kg, this mighty machine can power a microwave oven, camping fridge, kettle, or television. The EF2000iS features a cleverly designed muffler and air filter that enables super quiet performance.

Thanks to its advanced Noise Block™ sound reduction system, you can enjoy a conversation without the need to raise your voice. This generator is so quiet that you might not even notice it's running, which is something both you and your neighbors will appreciate at a campsite.

This generator is not limited to caravan and camping use, as it is versatile enough to be used in many other situations. You can use it at home as a standby generator or to provide power anywhere from race track sites to markets. Its small size, ease of use, and versatile handling make it the perfect appliance for any situation.

Moreover, the EF2000iS Inverter Generator is equipped with a TwinTech™ parallel-use function, which allows for additional power when needed to accommodate a wider range of uses. For instance, you can use it to power a combination of appliances in a motorhome or caravan.

This 2 kVA Inverter Generator is a force to be reckoned with. It outperforms the competition and is also quieter, smaller, and lighter. Whether you need it for outdoor activities or to provide power to appliances in different settings, the EF2000iS Inverter Generator is the perfect choice.

SPECIFICATIONS

Model	EF2000iS
Maximum Output	2000 Watts
Rated Output	1600 Watts
Operating Hours (Full Load)	4.2 hr
Operating Hours (1/4 Load)	10.5 hr
Fuel Tank Capacity	4.4 L
Size (LxWxH)	490x280x445 mm
Dry Weight	20 kg
Noise Level (1/4 Load / 7m)	51.5 dBA
Starting System	Recoil
Fuel Gauge Monitor	Yes
Independent Fuel Tap	Yes

FEATURES AT A GLANCE

- **The Lightest Generator** in its class weighing only 20 kg.
- **USFS-Approved Spark Arrestor** eliminates errant sparks.
- **TwinTech™ Capability** enabling you to connect two EF2000iS for almost double the power output.
- **OHV Engine With Cast Iron Cylinder Liner** for longer life, powerful performance and excellent heat dissipation.
- **Smart Throttle™** varies engine speed based on load to improve fuel economy and reduce noise.
- **Inverter System with PWM (Pulse Width Modulation)** to safely run products with built-in microcomputers or microcomputer-controlled equipment/tools.
- **Petrol Petcock** helps prevent carburettor contamination during storage.
- **Oil Warning System** prevents engine damage.
- **Fuel Gauge** displays fuel levels without having to open the fuel cap.
- **Auto-Decompression System** reduces compression for effortless starting.
- **Electrical Overload Breaker** prevents generator damage in case of overload.
- **Controls Located On One Panel** for easy access.
- **DC Outlet** with 8 Amp / 12 Volt outlet.
- **Rubber Isolation Feet** for smooth operation and noise absorption.
- **Easily Detachable Side Panels** for easier serviceability.
- **Noise Block™ Sound Reduction System** for performance so quiet, you'll forget the generator is even running.
- **Multi-Polar Alternator** for the generation of high quality, high frequency 3-phase AC current. This means a much lighter and a more compact unit when compared to conventional 2-pole rotor type alternators.
