This is a water type fire extinguisher with the F-500 Encapsulator Agent. This extinguisher has been manufactured and tested to Australian Standard AS/NZS 1841.2, and tested as per the requirement of AS1850 for Class A, B and F fires. Extensive testing has been performed, and this encapsulator agent, performs exceptionally well against Lithium-Ion Battery Fires.

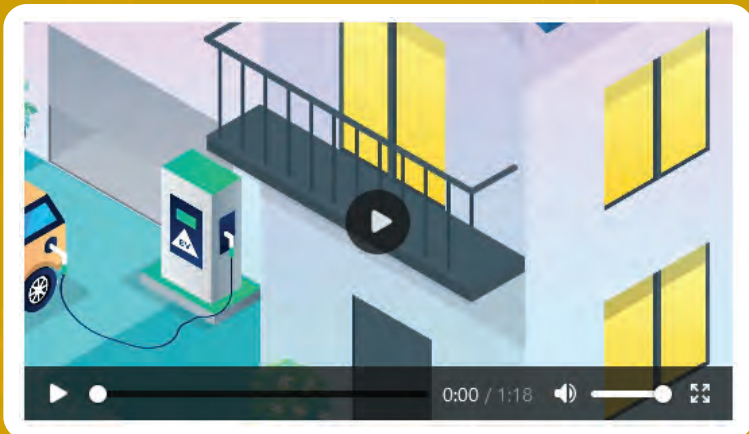

We encourage you to discuss your individual fire needs with your Fire Service provider to ensure that you are covered for all Fire risks. The 4L Extinguisher has been tested to a Li-Ion battery fire with 2.4kWh battery capacity, while the 9L extinguisher has been tested to a Li-Ion battery fire with 4.8kWh battery capacity.

This extinguisher is not to be used on AC Power (100V AC or higher) electrical fires.

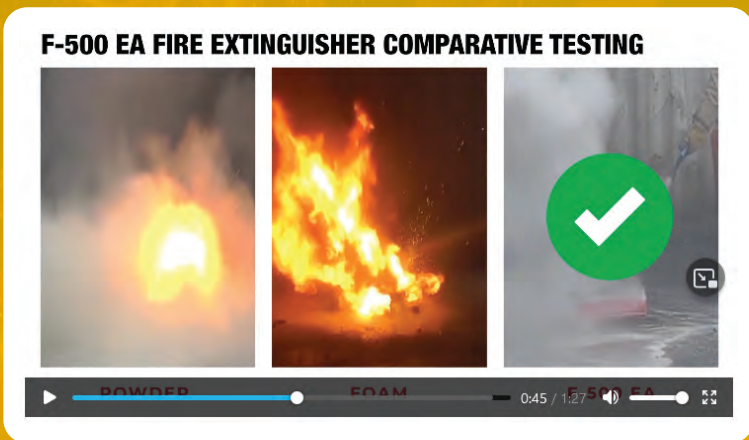

Also Available in 20L, 200L and 1000L Drums
