

DELKOR 31-1000

Technical Bulletin

Based on the highly successful Delkor 31-900 range the 31-1000 offers the same group 31 case size but with a greater CCA of 1000 Amps. An ideal choice when you need a commercial battery with a bit of extra grunt.

The 31-1000 also has the acclaimed Delkor features of calcium/calcium wrought grid plates, high strength & heat sealed polypropylene case, patented liquid gas separators, vibration resistant, low resistance envelope separators and fine grain, highly refined fine grain lead alloys.

Technical Specifications

Product ID:	31-1000
Reserve Capacity:	160
Cold Cranking Amps:	1000
Voltage:	12
Weight:	25.4 Kg
Width:	172 mm
Length:	330 mm
Height:	240 mm
Terminal:	CENTRE POST SAE

Applications

Commercial vehicles, heavy haulage and agricultural applications.
